

MAILLIS STRONG STRAP PVT. LTD.

TO WHOM SOEVER IT MAY CONCERN

We are operating our plant 24x7 all 365 days round the year. We have continuous process plant manufacturing PET Straps.

Due to Power Quality issue like Brown Outs and Black Outs our sophisticated automatic manufacturing process was coming to grinding halt. This very seriously affected our business bottom line.

“SUVIK” provided total solution to this Power Quality domain by providing state of art technology product UPS. The 320 KVA rating UPS was installed and commissioned in April, 2007. Since then we have found our plant running uninterrupted in any kind of Power Quality issues.

We are quite satisfied with the reliability and quality of the UPS commissioned.

We cherish our decision of installing “SUVIK” UPS.
