Dear Sir,

**Sub: Performance Certificate**

At the outset we sincerely appreciate Suvik's endeavor of appraising our company with the state of art technology on AVR and its trial run on our CNC M/c.

We are also thankful to Suvik for deploying technical person to evaluate the performance of the said AVR along with our equipment.

We are happy to inform you that after the successful trial run for more than a month we have come to conclusion that we need to educate our end users on this latest technology to avail the benefits of the same.

We would expect Suvik to extend all the kind support in this regard like convincing the customer on technology front to promote PWM IGBT based Static Stabilizer.

We have decided to slowly change over from Servo Controlled to Static AVR.

Over all we are happy at TAL CNC M/c with the performance of prototype static AVR

Thanking you,

For TAL MFG SOLUTIONS LTD
